I n s t r u c t i o n s

1.

Attach large caster wheels to both Support Bases with included nuts bolts & washers

2.

Attach Vertical Base Supports to Support Bases. They can be tightened into place with the lock bolts.

3. Attach Support Crossmember to both Support Bases.

4.

You can adjust the width between the Support Bases by sliding the Support Crossmember in & out of the Bases. Lock into place with the Lock Bolts.

5. Attach Base Support Bracket to Vertical Base Support & Support Crossmember. Repeat for both sides.

6.

Slide Bed Support into Vertical Base Support. Use pin to set desired height.

7.

Attach Handle Bracket to Support Base. Handle can go on either side of Dually Bed Dolly. Attach Handle to Bracket.

8.

Slide Bed Support Extensions into ends of Bed Supports. These are adjustable by sliding in & out. Lock into place with the Lock Wing Bolts.

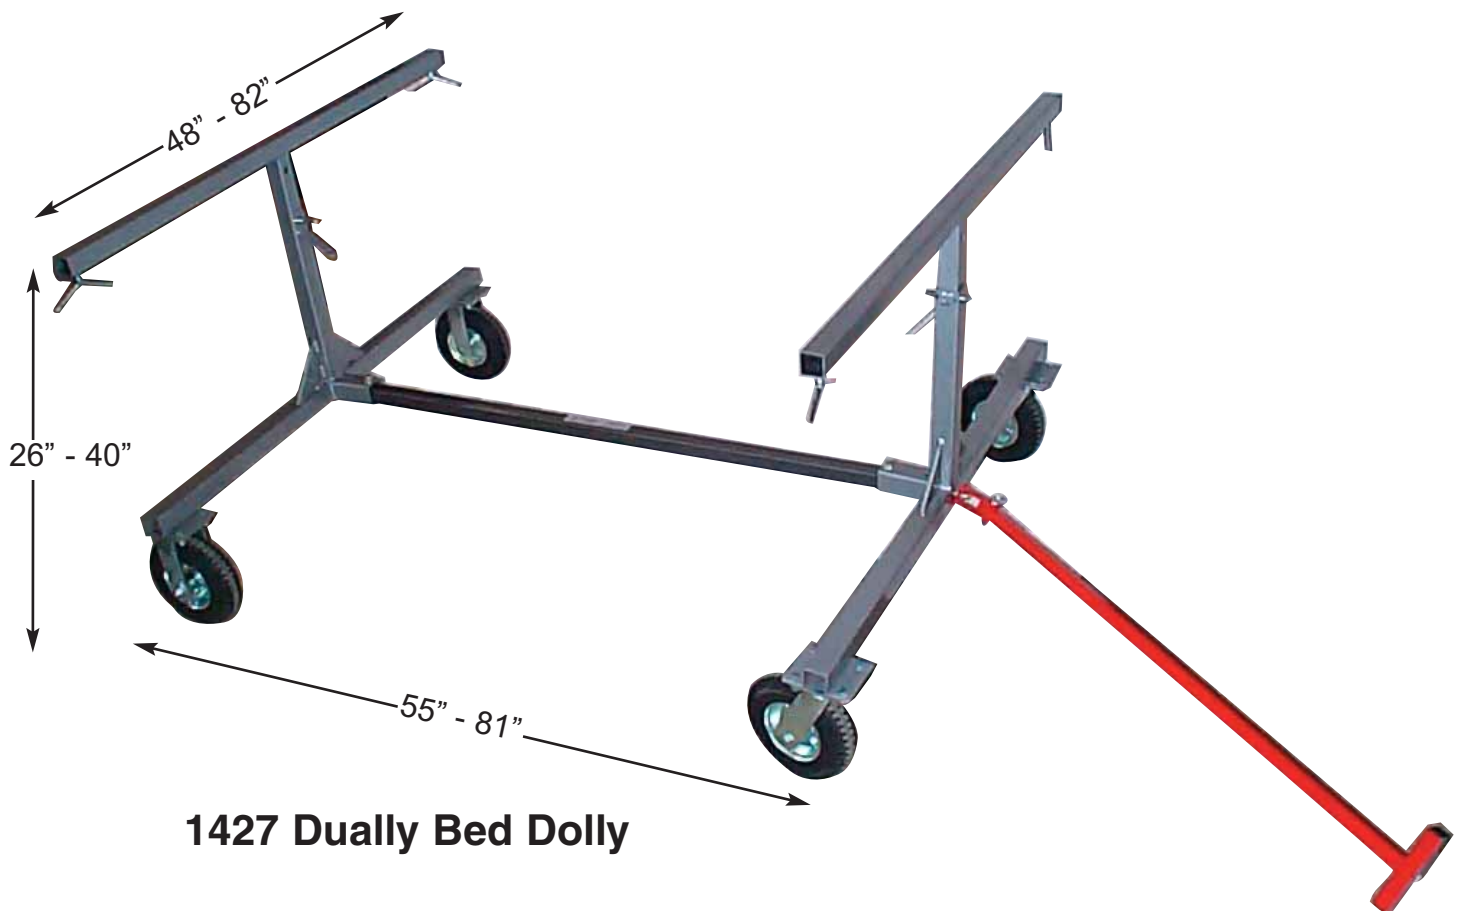

Caution: Make sure all bolts & locking bolts are tight & secure before using. Failure to do so may result in bed or bodily injury.

Your Dually Bed Dolly is now ready for use and with proper care your Dually Bed Dolly will give you many years of service.

CAUTION:

The Dually Bed Dolly load capacity is 800 lbs.
Do not exceed load capacity.
